# Global Leadership: Discover and Create the Future

## Change is the only constant.

In uncertain and increasingly volatile globalized markets, success demands cutting-edge leadership and strategy. Global Leadership at Tuck provides rising executives with the tools they need to lead their organizations into this new era.

The program's three week-long modules take place on Tuck's campus in the heart of New England, in Chennai, India, and in Xi'an and Shenzhen, China. These immersive learning experiences accelerate participants' leadership growth and enhance their capacity to drive breakthrough innovation.

## The Consortium

Global Leadership is a consortium of non-competing companies seeking to prepare their highest-potential executives for global leadership roles. These companies include:

## The Program

The nine-month learning experience comprises three week-long modules—plus an Action Learning Project:

### MODULE 1

#### Tuck School of Business Hanover, New Hampshire

Engagement in innovation, leadership frameworks, and storytelling prepares participants to capitalize on the program’s active learning experiences.

### MODULE 2

#### Chennai India

Exploring the society, culture, and economy of rural and urban India allows participants to understand business opportunities and challenges and apply new thinking.

### MODULE 3

#### Xi’an and Shenzhen China

Immersed in the paradoxes of China’s East and West, participants discover what it means to be a successful leader wherever they are in the world.

### ACTION LEARNING PROJECT

Throughout the program, participants work on a project of strategic importance to their C-suite leaders to deliver real results. A sponsor in each company oversees the project charter, while a coach guides the collaboration and supports group and individual growth.
